Re: New Clerk's Emergency Generator

To: Board of Commissioners

Cc: Ken Huffer, Justin Hogue

For last several years the emergency generator that serves the Clerk's Office has been extremely unreliable. It has been extremely difficult to find a service company who is willing to work on it. This generator was purchased used from a surplus sale in approximately 2008 and has been unreliable most of that time.

Due to the nature and importance of the business conducted at the County Clerk's Office it is important they have a reliable source for emergency power. I reached out to Peterson Caterpillar using the Government Purchasing agreements (Source Well) for a quote on a new Generator. They responded with a base quote of \$32,585.00 For an additional \$1,000.00 we can get the sound attenuated enclosure which is recommended for the application we intend.

This project was approved as part of the FY 2018-19 C.I.P, therefore I respectfully recommend we accept the quote with the Attenuated Cabinet for \$33,585.00.

Thank you for your consideration in this matter,

## Attachment A:

### **Commercial Terms and Conditions**

- Seller reserves the right to accept or reject this order
- Payment: Subject to credit approval, Net 30 days on delivery of material or labor completed
  - 100% on material delivery
- Taxes: not shown or included but will be added as necessary
- Validity: Above quote valid for 30 days
- Price: Escalation charges will apply to orders awaiting release of "hold for approval" submittals longer than 90 days
- Cancellation: Charges of 10% on order, 30% on delivery of hold for approval submittals, 50% up to 4 weeks following release for production, 90% thereafter
- Freight: FOB jobsite, off loading, storage, and protection of equipment at jobsite is not included. Seller's responsibility for shipments cease upon delivery to transportation company. Any claims for shortages, delays or damages occurring thereafter shall be made directly by the purchaser to the transportation company. Any claims against the seller for shortages in shipments shall be made within fifteen days of receipt of shipment.
- Warranty: Standard manufacturer's warranty applies to the above listed equipment. Extended service contracts may be available and are listed above if included.
- Acceptance: Once accepted this order shall become a binding contract but is subject to strikes, lockouts, accidents, fire, delays in manufacture or transportation, acts of God, embargoes, or government actions. These causes beyond the control of the seller shall absolutely absolve the seller from any liability to the purchaser under the terms hereof.
- Contracts: penalty or liquidated damages clauses for failure to meet shipping dates are not acceptable or binding on Peterson Power
- Title: It is understood and agreed that title to and possession of subject equipment shall remain vested in seller until all obligations and payments due from purchaser to seller have been paid in full.

### **NOT INCLUDED:**

- Installation: Peterson Power is an equipment supplier only. Items noted are "shipped loose" for contractor installation including any required interconnecting piping or to customer connections
- Permits: Any and all permit applications or costs including but not limited to local City, County, State and AQMD. Peterson Power will provide information as requested for use with permit application but assumes no responsibility or obligation to apply for or obtain subject permits. Peterson Power has provided equipment that to the best of our knowledge complies with all local, state and federal requirements.
- Emission permitting and compliance testing and related costs. To the best of our knowledge this equipment meets all current emission standards for PM and Nox. A permit to operate this engine may require a "Risk Screen Analysis" to determine maximum cancer risk at the final installation site. Results of this test may require the addition of exhaust after-treatment devices. This equipment is not included unless specifically called out in our bill of material.
- Testing: Any and all associated testing, inspection, equipment, and certifications requested or required to be performed by a third party including circuit breaker coordination, system commissioning or building load testing
- Additional items that may be required by local utility for interconnection and parallel operation
- Electrical, Mechanical, Civil, and Structural professionally engineering services
- Engineering services other than supply of Peterson Power Systems standard drawings, equipment cut-sheets and controls per quoted scope of supply
- Startup and Commissioning service charges other than as noted in the quoted scope of supply. Additional field or shop labor including travel costs to/from the jobsite will be quoted and charged separately at time of requested services.
- Balance of plant equipment, controls, and monitoring except as quoted
