CITY OF CARLTON

Measure No: 36-192

Caption: Measure Proposing Sale of Bonds for Public Safety Facility Construction

Question: Shall the City of Carlton issue general obligation bonds not exceeding \$2,300,000.00 for construction of a Public Safety Facility? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

Summary: If approved, this measure will fund the construction of a Public Safety Building. The bonds will pay for:

- Demolition of the existing commercial building located on the site;
- Construction of a new public safety structure for the police department;
- Installation of mechanical, plumbing, and electrical improvements;
- Construction of secure prisoner processing and interview facilities; and,
- Design and engineering costs and bond issuance costs.

The bonds would mature in 26 years or less from date of issuance and may be issued in one or more series. The overall tax rate for these bonds is estimated to be approximately \$0.96 per \$1,000.00 of assessed property value the first year and average \$0.69 per \$1,000.00 of assessed property value over the life of the bond, or \$144.00 per \$150,000.00 of assessed valuation the first year and \$103.50 per \$150,000.00 of assessed valuation on average over the life of the bond. Actual rates may differ and depend upon interest rates incurred and growth in assessed valuation.

Contest Total: 1

CITY OF LAFAYETTE

Measure No: 36-195

Caption: Construction of intertie to expand water supply to the City

Question: Should Lafayette construct an intertie with McMinnville Water & Light to increase the available water supply to the City?

Summary: The purpose of this intertie project is to provide Lafayette an additional water supply to meet current and future growth demands. Approval of this ballot measure will allow the City to use existing revenue projections and possible state support to construct an estimated 8,800 feet of 12" waterline and pump station from Lafayette to McMinnville. The proposed intertie will provide adequate water supply during high summer demand periods and will eliminate water supply shortages that have occurred in the past. In addition, this intertie will provide the water resources to allow future development in the City's urban growth boundary. Construction of this estimated \$2.5 million intertie project is included in the Water System Capital Improvement Plan. The Lafayette City Charter requires voter approval for any capital project of \$1 million or more. Approval of this ballot measure does not increase property taxes.

Contest Total: 1

CITY OF SHERIDAN

Measure No: 36-194

Caption: City Charter Amendment relating fees for new and added development.

Question: Shall the City Charter be amended to allow annual increases in certain development fees in accordance with State Law?

Summary: The purpose of the proposed Charter amendment is to allow annual increases in public facility fees payable to the City by developers based on a cost of construction index.

The City Council has proposed a new Section 51 of the City Charter to implement Oregon Revised Statute 223.304(8). State law authorizes adjustment of certain development charges based upon an adopted construction cost index. The proposed new section would read as follows:

"SECTION 51. CHARGES TO DEVELOPERS FOR CAPITAL IMPROVEMENTS

In accordance with Oregon Revised Statute 223.304(8) and any replacement statute, and notwithstanding any other provision of this City Charter, system development charges payable to the City for expansion or replacement of public facilities may be increased annually based upon a cost of construction index designated by the City Council. An annual increase may be calculated to conform to a ten-year average of annual changes in such building cost index."

Contest Total: 1

NESTUCCA VALLEY SD #101

Measure No: 29-153

Caption: Authorizes General Obligation Bonds to Construct and Renovate School Facilities

Question: Shall Nestucca School District issue \$25,700,000 general obligation bonds for capital costs, renovate and expand elementary facilities, receive \$4,000,000 grant? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

Summary: Nestucca Valley School District No. 101 has been awarded \$4,000,000 in State grants which will be available only if the bonds are approved.

If approved, this measure would finance capital costs, including:

- Renovate existing elementary facilities: plumbing, electrical, windows, siding and finishes.
- Construct addition to elementary facilities increasing the capacity to move 7th and 8th graders out of the JRSR High School to a K-8 campus. The construction will include: new cafeteria, commons, classrooms, regulation-size gymnasium, parking facility, playground, landscaping and other improvements with energy efficient, seismic, safety and security design.
- Facilities may serve as emergency shelter for area residents following a natural disaster.
- Renovate K-8 water system, purchase property and other capital improvements to District facilities.
- Pay issuance costs.

Bonds would mature in 21 years or less from date(s) of issuance. If approved, the incremental tax rate increase from the projected 2019 rate is estimated to be \$0.99 per \$1,000.00 of assessed value. Actual rates may vary based upon interest rates incurred and changes in assessed value.

Contest Total: 1

WEST VALLEY FIRE DISTRICT

Measure No: 36-193

Caption: Five Year Local Option Tax for District Operations, Capital Projects.

Question: Shall the district levy \$.50 per \$1000 each year for 5 years beginning 2018 for basic operations? This measure may cause property taxes to increase more than 3 percent.

Summary: The district needs additional funds to maintain current levels of service and basic operation. This local option tax measure would begin in fiscal year 2018 - 2019.

The Board of Directors have determined that a need exists to replace all Self Contained Breathing Apparatus in the fire district since they will be out of the service life in under 2 years, replace minimally one ambulance due to aging and high mileage, invest in maintenance and updating of the main station in Willamina, improve the training grounds and props for the training of firefighters and to help sustain the award winning Community Paramedic Program while service contracts are developed.

Proposed rate is estimated as follows: \$134,826.39 in 2018 - 2019; \$138,871.18 in 2019 - 2020; \$143,037.32 in 2020 - 2021; \$147,328.44 in 2021 - 2022; and \$151,748.29 in 2022 - 2023.
