Not sure if these comments are directed to the right person or if they are timely enough to be considered. If not, would appreciate being informed so we can attend the meeting tonight to share instead if needed.

We are writing in support of the proposed changes to ADU laws that would allow them to be built on rural residential land.

We personally have family we were going to build a hardship dwelling for. These changes would allow us to utilize the space even after the hardship was over, creating less waste of resources, ease time working with planning (wouldn't have to keep qualifying for use of hardship, inspect septic...) and allow for easier sale of home in the future if the ADU is usable by any owner.

Thank you for your time and consideration over this matter.
